DETAILED ACTION

EXAMINER'S AMENDMENT

The application has been amended as follows: Claim 28 reads "The bus interface control of Claim 26", but due to the cancellation of claim 26 Claim 28 is amended to read "The bus interface control of Claim 22". Also, Claims 37 and 38 read "The method of Claim 35", Claims 37 and 38 have been amended to read "The method of Claim 36". Examiner spoke with Mr. Michael Verga and gained permission from the attorney to amend the claims as previously mentioned.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Pharrett teaches a plurality of pull-up circuits(isolation disconnect circuits 12a-12g) connected to signal lines, however Pharrett fails to teach the pull-up circuits each connected to a corresponding signal line of the bus. Also, Pharrett teaches a multi-mode power source(power supply 15), however the power supply 15 is not connected directly to the bus 11c and is not responsive to an enable signal carried on the line of the bus 11c.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
